## Notice of Water Service Interruption

Please be advised that the water system will be shut off in your area on Wednesday, November 9<sup>th</sup> for approximately 2 hours from 9am to 11am. As such, please keep some water in a container in your fridge for drinking as well as a bucket or two full for flushing your toilet.

The process of closing and opening water main valves may cause some discolouration of your water. If this occurs please run your outside hose tap or your cold water bath tub faucet until the water runs clear. Avoid doing laundry until you have confirmed that the water is clear.

It is also advisable that you DO NOT use hot water during this time as this will prevent any damage that can occur to any hot water tank elements.

Thank you for your cooperation!

For additional information regarding this project please contact  
Gavin Murgatroyd, Public Works Foreman @ 250.792.1593
