**Subject:** Fwd: DVP2602 Regarding: hobbies

thank you for getting back to me so quickly. My concerns are that later on it could turn into a hobby for repairing automobiles and everything that goes into their repairs I would like some kind of insurance that this will not be happening [REDACTED] [REDACTED] reassured us that he is aware of our concerns. [REDACTED] but I do not want him to say everything has to be OK when later on it isn't, he is interested in the repairing of automobiles, etc. [REDACTED] and I think I live on one of the nicest streets in Cumberland and I would very much like it to stay this way.

Thank you

Hi [REDACTED]  
Thanks for taking time to write to me about this application. It hasn't come to Council yet but I am happy to share your feedback with council when it does.  
Council does not generally govern what goes on inside the building unless there is a business license application (which is a staff decision). We do have influence over the additional height and size of the building. Can you tell me what your concerns are? Are you worried about noise? It looks to me like the building is being built with a hoist in mind - so something around boats or cars on a hoist?  
Thanks  
Vickey

---

On this DVP2602 it is stated that this building will be used for storage, shop and hobbies. Would you please get the applicant to state what his hobbies are ?

Thank you
